Animal Inventions

1. Open a new document
2. Make sure the draw tools toolbar is open(otherwise goto the view menu, goto tool bars and click on the draw tools)
3. Use AutoShapes to create your own animal.
4. Use the Fill and Outline tools to colour your creation.
5. Give your animal something to say using the "callouts" in AutoShapes - type your message inside the shape.
6. Label you animal using WordArt
7. Save your work inside your folder.
8. Print your document out in black and white only.
